Hello Bob,

**RE: SEPA Log Number 11-098 DNS - Modrow Boat Ramp Replacement Project**

Enclosed please find the comment letter that was received December 14, 2011 in regards to the WDFW Modrow Boat Ramp Replacement Project.

Previously Rebecca Schroder's comments were resolved with Ecology. I sent you an email to address that portion of the comment letter - Ecology is now satisfied with our permit process.

I want to let you know that we are working with DNR to resolve the portion of the comments (permit issues with DNR) stated in the enclosed letter. After calling DNR to address their comments, we were advised to update our existing Aquatics Lands Lease (Lease No. 20-086129) by providing additional information about our proposed project at the WDFW Modrow Access site.

I sent DNR some materials that they had requested to update our existing Aquatics Lands Lease for the Kalama River. We are having a meeting tomorrow (WDFW Capitol Way) office to discuss the application materials to update our existing Aquatics Lands permit, and see what else, if anything, DNR may require to satisfy their permit issues or concerns. I want to assure you that we are doing everything we are required to do to update our existing Aquatics Land Lease, and satisfy all of DNR's concerns that are reflected in their portion of the comment letter.

Regards,

Cindy
